**5 MIN BLEED NEW PATENTED CF VALVE PATENTED EASY TO SERVICE CARTRIDGE**

A true XC and Marathon beast. Weighing only 345g out of the box, the Podio can be cut down to adjust length and save weight (309g for 305mm long 30.9). Our patented hydraulic system provides smooth performance and control over the seat height adjustment allowing you to focus on getting to the podium.

Our carbon fibre tubes have been tested in the lab and on the World Cup battlefield by world's top athletes. Service procedures are easy enough to be performed at home. All spare parts and service tutorials available.
