DNA Race Bibs balance the need for a high performance bib at a value price. The 3 hr chamois provides constant comfort and support where you need it most. The innovative fabric provides an even distribution of stretch, which makes these bibs exceptionally comfortable and form fitting. Please reference the size chart - these bibs have a tighter fit than our previous generation bibs.

## Pivot Cycles DNA Race Jersey

Aptly named the Race Jersey because it's made for speed. With supremely aerodynamic fabric, it's the ultimate in comfort and performance. Not only that, but the Race Jersey is packed with all the high quality features you'd expect in a pro-grade jersey. Please reference the size chart - these jerseys have a tighter fit than our previous generation jerseys.

Our products are made to stretch, but fit the body snugly and comfortably. With that being said, even with the most careful of washing, the Lycra may relax a bit after your first few rides. If you put your normal size bibs on according to our size chart and they fit a little small, don't stress. They will fit like a glove soon. Also please keep in mind, not using the recommended washing techniques may contribute to excessive stretching or shrinking.
